Arabic

English

I am not proficient in the language, but I am fluent in it

PROFILE

Student at Delta Higher Institute of Computer Science. Very excited to work as a front-end and back-end developer and am looking for an opportunity to apply and expand my skills in a dynamic and supportive environment. Proven ability to write effective code and work effectively in a dynamic team environment.

WORK EXPERIENCE

Projects

Cars website Design :-

Designing a car website using Html & Css & Js

Using : <https://github.com/Basam-mrzouk/Cars.git>.

Cafe website Design :-

Designing a Cafe website using Html & Css & bootstrap & Js

Using : <https://github.com/Basam-mrzouk/Cafe.git>.

E-commerce Using Html & Css & Js & React js :-

An online store, then I used the API to display the products, then the product is added by pressing the button, and thus it will be heard in the shopping cart.

Using: <https://github.com/Basam-mrzouk/Ecomerc-React.git>.

Website & Dashboard

The web site consists of two parts, one for the user and one for the admin. He must register on the first page and based on his registration, he enters the rest of the pages as a user or enters it on the control panel as an admin. using php and mysql

Using: <https://github.com/Basam-mrzouk/Dasahboard-php.git>

Card opertions

I finished the course larvel card opertion
create & Update & delete & write .

In addition to:

- He also passed the work on the Larvel project
- I deal with Github To raise projects
